

ROSTER ISSUE

This issue of the VHS BULLETIN represents the mailing list of the Society. Members are marked with an asterisk (\*). The list is set up alphabetically, by county. It is hoped that this will ease the chore of locating nearby members or those who live in an area that you plan to visit.

Why a VHS Roster? Listing by Va. counties shows the scope of VHS membership at the present time. During 1966-1967 we hope to show an increase in membership in many counties where it is now thin. We ask you to keep the need for such growth in mind. Let people who are interested know about VHS.

The officers of the Society urge trained biologists -- college and high school faculty particularly -- to consider full-fledged membership in the Society. All members should support the Society's objectives:

- (1) Scientific study of the state's reptiles and amphibians;
- (2) Qualitative improvement of the recording of collecting data;
- (3) County surveys and exchange of verified information;
- (4) Broader public understanding in the interest of conservation;
- (5) More accuracy in news reports on reptiles and amphibians; and
- (6) Placement of specimens in permanent scientific collections for study and for educational purposes.

VHS is an all-inclusive, rather than an exclusive Society. Membership is open to anyone who is more-than-casually interested in amphibians and reptiles found in Virginia or adjacent states.

The members ARE the Society; the VHS Bulletin is their means of communication. Support VHS through regular dues-paying and by contributing collecting notes and other pertinent herpetological lore on a regular basis. Check the list of members and make certain that you are correctly listed. All corrections welcomed.

IF you have not renewed your VHS membership for 1966 this is the month to do it. Everybody's anniversary is February. Those not renewed (educators excepted) will be dropped by mid-year. All 1966 issues of the VHS Bulletin will be given to new members.
